

PRODUCT DATA SHEET

FAMOFLOR MATS

Revised 01/01/03

Specifications: Specially shaped, high quality PU soft foam pads with built-in clay minerals, long term fertilizers and various mineral substances to supply a sustainable supply of nutrients for vegetated eco-roof systems.

Vegetation mats are designed with a high pore volume to allow water retention for plants during sustained dry periods while simultaneously filtering storm water and providing drainage for excess water.

Composition: Recycled Polyurethane Foam

Technical Data:

Thickness: 3.5 cm (1.40")

Length: 100 cm (39")

Width: 100 cm (39")

Pore Volume: 95%

Water Storage Capacity: 30 Liters (7.92 Gallons) m²

Dry Weight: .45 lb/sq ft

Saturated Weight: 2.7 lb/sq ft
